

Partner Management

Our integration platform Orchestra forms the backbone of digitalization for our international customers and partners on their way to Industry 4.0. As a successful, rapidly growing company, we are looking for reinforcement for our Partner Management team!

WHY YOU?

- Degree, ideally with a business and/or technical focus
- IT affinity as well as interest in gaining knowledge about technical topics
- Structured, precise way of working, as well as strong quality awareness
- Initiative and enjoyment of team-oriented work
- Experience in international work and very good English skills

YOUR EXCITING TASKS

- Support in the cooperation with our national and international partners
- Continuous updating and recording of partner data and maintenance of partner relationships
- Support in contract management as a link between partner management and the legal department
- Preparation of contract negotiation and coordination on new partner models

Then you are exactly right with us!
